

Easybib is an online tool for creating a **Works Cited** list or **Bibliography**.
Go to www.easybib.com

If citing a website, click on **Website** and then paste the URL into the box.
Easybib will find the sight, then it may ask you to fill in any missing details. Go back to the site and check for this information.

Click on **Create Citation**.

If citing a book, click on **Book** then type in the title. *Easybib* may give you a couple of options, select the correct one then **Create Citation**.

Once you have entered all the sites and books you used for your project, click on

- **All**, then
- **Print as a Word Document**, then
- **Click to Continue Without Registration**, and finally
- **Click Here to Download your Bibliography in MS Word**. Print.

Go to:

<http://search.creativecommons.org/>

In the search box enter your search term and click on the **Flickr** box.

Select an image

Confirm that the picture is available for you to use

means you are required to attribute the work to the original author in the manner they have specified. You must also be careful not to imply that the original author has endorsed you in any way through your use of the item.

Copy and paste the image, giving the creator credit using format below:
